EXPERIENCE

TechNet Cloud

(6 Month experience)

Expert in JavaScript, TypeScript, React, and Next.js, with proficiency in HTML5, CSS3, and Git. Experienced in leveraging GitHub for version control and collaboration. Seeking an opportunity to grow professionally and personally while contributing my skills to a dynamic team.

PROJECTS

1) Ecommerce Website + (Admin Dashboard)

- Improved a responsive e-commerce site with features for users and admins. Utilized Firebase for secure authentication and real-time database management. Created an intuitive admin dashboard for product and order management. Implemented add-to-cart functionality and integrated Razor pay and for smooth payments. Ensured full responsiveness for optimal viewing on all devices.

Technologies:

Typescript, React JS, Firebase,
Redux Toolkit

2) Fully functional Chat App + (Admin Dashboard)

- Enhanced a fully responsive Chat app clone with real-time chat functionality. Designed an intuitive chat interface using React.js and Material UI, Web Sockets.io Utilized Firebase for real-time messaging and data Implemented secure user authentication with Ensured the application is fully responsive, providing a seamless chat experience across all devices.

Technologies:

Typescript, React JS, Material UI, Material UI Grid Table, Redux
Toolkit

3) Shopping Website

- Expanded a modern shopping website using React Js and Firebase, Implemented secure user authentication real time data synchronization and a seamless checkout process.

SUMMARY

Hi there! I'm a passionate front-end developer with a knack for crafting immersive digital experiences. With a keen eye for design and a love for clean, efficient code, I specialize in transforming ideas into engaging user interfaces. Let's collaborate to bring your vision to life and create seamless, user-friendly web applications together!"

TECHNICAL SKILLS

Front-End Technologies:

HTML5, CSS3, SASS, JAVASCRIPT,
TYPESCRIPT

Frame-Works / Libraries:

REACT.JS, NEXT.JS BOOTSTRAP, TAILWIND,
FLOWBITE, DAISY UI, MATERIAL UI

Version Control System:

Git/GitHub

State Management:

REDUX TOOLKIT, USE CONTEXT API

Relative Skills:

Api handling, Restful Api's Handling,
Authentications, Payment Integrations,
Charts, React Tan stack Table for
dynamicallyfetching data in table, Json,
Debugging

SOFT SKILLS

- Analytical thinking
- Attention to detail
- Keeping up-to-date with industry trends
- Adaptability to new technologies
- Task Prioritization

Designed an intuitive responsive interface and integrated personalized recommendation to enhance user experience.

Highly Focus on responsiveness:

- Utilized Tailwind CSS to create a fully responsive design.
- Ensured the application is accessible and functional on various devices, including desktops, tablets, and mobile phones.
- Applied media queries and flexible grid layouts to adapt the interface to different screen sizes.

Technologies:

React js, Firebase, Tailwind CSS

PASSION

Continuous Learning:

Adopting the latest trends in front-end and back-end development.

Quality Focus:

Delivering high-quality projects that enhance user satisfaction and engagement.

EDUCATION

Bachelors in (Software Eng.)

Minhaj University Lahore

ACHIEVEMENTS

Advanced Front-End Development:

Built multiple high-fidelity clones of popular websites (W3Schools, YouTube, WhatsApp, Amazon), showcasing the ability to recreate complex user interfaces and functionalities. Developed responsive web applications ensuring optimal performance across various devices and screen sizes. Implemented modern front-end technologies including TypeScript and Tailwind CSS, enhancing code quality and UI design.

Problem-Solving and Debugging:

Developed strong problem-solving skills by debugging and optimizing code for better performance and reliability. Handled complex

issues in both front-end and back-end development, ensuring robust and error-free applications
